Parent involvement is at the heart of student achievement, and you play a pivotal role in the education of your children. We want you to know we appreciate your involvement and encourage your continued partnership as we enrich the academic experience for students. To help you continue on this path, Miami-Dade County Public Schools has created an online Parent Resource Guide - a "one-stop" source with helpful tips and information to guide you as you advocate for your child. In its pages, you will find information on helping your child in school, becoming active with parent organizations such as the PTA/PTSA, and understanding standardized testing. We hope you find it to be a useful tool as you involve yourself in your children's education.
